

AquaBac Internal Filter

Keep your fish and their home healthy and happy with the Aqua One AquaBac filter.

The AquaBac has a slimline design which doesn't take up visual space. The filter is easy to install and secure to your aquarium. With a large filter volume in an easy to place, narrow body, the filter is excellent for small to medium aquariums.

The AquaBac is fully submersible and provides a combination of biological, mechanical and chemical filtration.

**Suitable for: Coldwater, Freshwater
Tropical and Plants**

Features & Benefits:

- Fully submersible
- Quiet operation
- Increases oxygen content of the tank
- Suction cups provided to securely fix the unit to the side of the aquarium
- Mounting bracket included
- Filter media included
- 1 + 1 year guarantee
- Slimline design doesn't take up visual space

25001C	Carbon Cartridge 2pk 1c

Note, Hints & Tips:

- Wash the carbon cartridge in tap water before use. Do not use detergent or soap.
- It is important to never use tap water to clean filter components, as Chlorine/Chloramines in the tap water will wipe out biological bacteria and render the filter temporarily useless upon reconnection. It is recommended you fill a bucket of water (providing the water is not dirty) from your aquarium to rinse and clean filter components.
- Refer to maintenance tips provided in the instruction manual.

Warnings and Disclaimers:

- It is important to follow the safety guidelines as set out in the instruction manual contained within the packaging of this product. This appliance is not intended for use by children or infirm persons without supervision. Young children should be supervised to ensure that they do not play with the appliance.
- Do not use the appliance for reasons other than the intended use. The use of attachments that are not recommended or sold to the manufacturer may cause the product to be unsafe. This is not recommended.
